Hospital

[Homepage](#) [About Us](#) [Departments](#) [Services](#) [Medical Staff](#)

About us

The Hospital is situated in the heart of the nation where lakhs of people come on a daily basis for checkup, surgery and all sorts of stuff. The Doctors here (such as **dr. chanda**, **dr. mukharjee**) are experts in their field. The Environment provided in the campus helps the patients to heal faster than lying just in a closed hospital room.

Departments

The Hospital contains many departments such as Neurology, Eye-Care, Emergency ward, Pediatrics etc. All these departments are great in their work and they save almost every person that ever comes to them.

Faculties

The faculties of our hospital are very calm and understanding. They are humble to the patients and provide all kind of help to them as per their requirements. The nurses and ward boys all are trained to guide the patients to places.

Faculties

The faculties of our hospital are very calm and understanding. They are humble to the patients and provide all kind of help to them as per their requirements. The nurses and ward boys all are trained to guide the patients to their required places.

Campus

The Campus is very big and is able to fit any number of people that may come with the patients even in the time of emergency. The garden and environment of the hospital provide a calm environment to the patients suffering from a severe disease and the environment can help calm their mind and make them heal faster.

Hospital

[Homepage](#) [About Us](#) [Departments](#) [Services](#) [Medical Staff](#)

Departments

The Hospital contains lots of departments dedicated to various diseases, illnesses, organs and age. The hospital tries to provide every latest equipments and technology required by those departments so that they can work accordingly to their full potential.

Cardiology

Neurology

Hepatology

Pediatrics

Eye Care

Cardiology

The Cardiology department is the Main site of healthcare of the hospital.

The department provides the best Magnetic resonance imaging (MRI) output. It provides the patients with Electrocardiogram (ECG) reports, it also provides Echocardiogram (ultrasound) reports of the heart on the go. The department provides the hospital the base for preparing for all other treatments.

Services

Hospital

[Homepage](#) [About Us](#) [Departments](#) [Services](#) [Medical Staff](#)

Services

The Hospital provides lots of services to the patients. They are mentioned below (such as Wheelchairs, Cardiac tests, X-rays, Blood test reports, Providing Medicines for the patients, DNA Verification, Providing Luxurious beds to the patients etc.) but they are not limited to just these services, the hospital handles all sorts of services and facilities required by the patients.

Cardiac-Tests

Tests like ECG, Ultrasound, MRI, CCTA etc. The hospital provides best cardiac doctors that diagnose the problem real quick and provide solution in an instance.

Medicines

The Hospital contains a pharmacy inside the hospital campus and the doctors mostly prescribe medicines available in that pharmacy only so that the patients can easily get access to their required medicines.

Hospital Beds

The Hospital provides normal as well as AC rooms for the patients which they can avail according to their budget. Both types of room contain complementary food so that no one is treated poorly than anyone else.

DNA Tests

The Hospital also provide instant DNA Test reports which help people find their lost children very easily. The Test results take lesser time than most other Hospitals.

WheelChairs

The Hospital provides wheelchairs to their patients free of cost until they need that facility and the whole campus is made such that anyone with a wheelchair can access every part of the building (i.e Wheelchair Accessible).

Test Labrotories

The tests are conducted in the world class labrotories and the test reports are provided to the patients as soon as possible which is between half an hour to 12 hrs after sample collection.
